Dear Phillip:

I would like to say thank you for the professional architectural services you provided on my restaurant project. The design is very functional, and the customers seem to appreciate the atmosphere, which was created. We love the large, easy to clean, kitchen area-it is a tremendous improvement from our previous kitchen. We have received a lot of positive comments regarding our new building.

It is amazing what this new building has done for our business. Before construction, we mainly catered to the construction crowd, then when we moved into and opened up this building, our customer base has expanded. We still have the construction crowd, but now we seem to get more professional type customers.

If you need any recommendations, please give me a call. Thanks again.

Sincerely,

William Aker
