November 7, 2005

To Whom It May Concern:

We worked with Mr. Phillip N. Owens on the Links Condominium project located in Gulf Shores, Alabama. The total construction cost for this project was approximately \$4.2M. We feel that he is a well-qualified architect/construction manager and would recommend him and his firm for other similar condominium projects. Please give me a call if you have further questions or comments.

Sincerely,

Philip Harris
President
